

Colin created "two beds with pillows" (top left), and a helicopter which he carefully glued together.

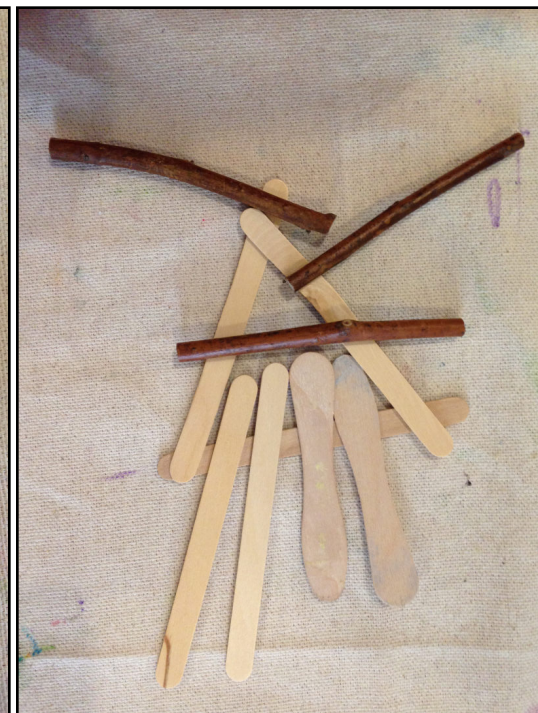

Julian made his "new house" (left) and an airplane. He held the sticks together and showed me how his airplane could fly.

Picture-Making With Sticks And Wood Rounds

November 14, 2016

Elena carefully constructs a picture of "a garage". She describes to me that the driveway is on the right. The car comes in and parks in the small space, and the larger space is for a truck. The wood round is a stool.
