

Landon lights up his creation

Adele stands directly in front of the projector partially blocking the light

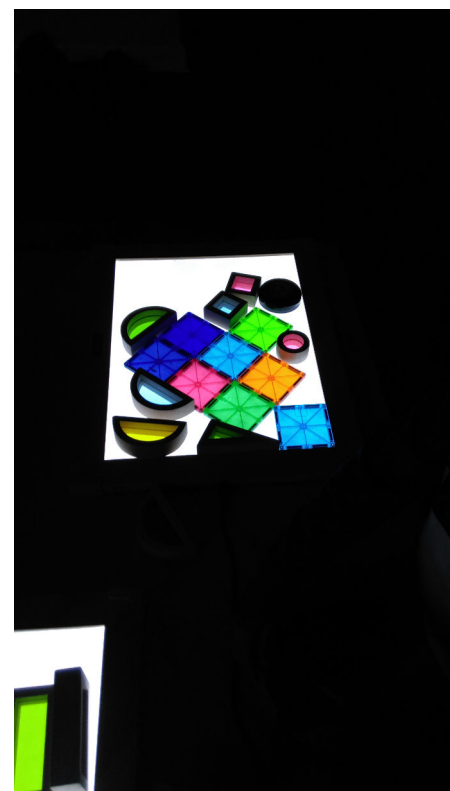

Eleanor's pigtails cast a large shadow

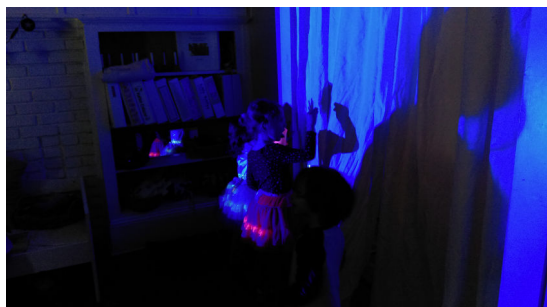

Lila arranges blocks on the light table, when she was finished, she proudly showed us her creation

Landon always enjoys building with Magnatiles

A child's creation lights up the classroom

Kahlan and Adele make shadow puppets

Kahlan builds with Magnatiles

Helena builds on the lights table

Monday November 23, 2015

Today in the Blue Jay class we spent the morning engaged in shadow and light play. After blacking out windows and dimming the lights, Ginny set out multi colored transparent blocks near our light tables, while Kalei set up the projector to create a blank space for making shadows. Without prompting the children immediately began to build on the light tables and dance in front of the projector!
