

A Very Special Visit from the Firefighters at EAV's Station #13

May 18th, 2016

Our wonderful colleagues in the Hummingbird classroom arranged for a fire truck & its fighters to share in an experience with us at The Nest. Perfect timing, too, as we'd *just* had a fire drill!

Landon & Hank share a moment of euphoria as the Blue Jays wait for their turn in the truck.

The children took turns walking through the truck, checking out the fighters' gear, & "driving." The outside of the truck was pretty exciting too with its many levers & buttons, flashing lights, lengths of yellow hose, & massive tires. After telling a firefighter she was graduating that evening, Adele received the unique privilege of honking the truck's *very* loud horn & testing out the siren before the truck's departure.
