

## C.C.'s Purple Princess Birthday Celebration

3 November 2017

C.C. turned three on Oct 26th and we celebrated her special day at school in a purple princess way. The children made her a cardboard doll. The doll's dress was created using scraps of paper previously painted by The Blue Room children, which is a lovely connection because she was with so many of those children last year. Inside the classroom, children played with a wooden castle. They were fascinated by the drawbridge that worked! Outside, we filled the sensory table with purple water and seashells. We read fairy tales and many children wore the color purple to school. Happy 3rd Birthday, C.C.!
