

HUMMINGBIRD HERALD

THE NEST NURSERY SCHOOL / FEBRUARY 2014 / VOLUME 4

Dear Hummingbird Families, we are happy to have you all back and hope the new year is going well for everyone. A special welcome to our new class member, Hatcher, who joined us in the beginning of January. We'd also like to send a big congratulations to Henry Schulz and his family on their newest addition, baby Eleanor!

This month some new themes have emerged in our explorations, and old favorites are still around as well. We have been very interested in puzzles, building, the letters of the alphabet, numbers, items that sink and float in water, and identifying different sounds and noises (especially funny animals like camels!). In the coming weeks we plan to use the book "How to build a House" to develop an ongoing study since our group is so interested in the subjects of homes, towns, trucks and construction. Don't forget to check out our daily diaries to see what discoveries we are making each day!

Reminders:

- Please refrain from sending in treats or candy on Valentine's day. We will be celebrating that day in other ways, we'd just prefer to do so without sugar.
- Please join us for a Parent Coffee on Thursday, February 13th. Mandy and Theresa will be sharing information about The Wonder of Learning exhibition in Greenville, SC.

Fenix and Hatcher working on numbered peg boards.

Logan, Henry Groach, Quincy, and Fenix building "a long, long, long road".

Quincy and Sky creating "a big car thing".
