

## In the Front Yard January 25, 2012

**The Worm:** This morning in the front yard Henry discovered a worm on the walkway. He touched it and then decided to sit back and observe the worm a little longer. Louise who is a big fan of worms and bugs came over and looked at the worm with Henry. Finally Henry picked it up again but this go around he watched it more closely as it wiggled in his hand.

**The Porch:** Nate and Cruz could not get enough of the front porch today! They each proudly climbed up the steps and then quickly discovered that the door was a great support for standing. Louise, Peter, and Henry also joined them on the steps. Nate and Cruz watched as they climbed and balanced.
