

# Nature Walk in The Front Yard- 11/10/21

In search of more items to observe at our Nature Table, we took a Nature walk to the Cafe of Life property. Equipped with bags, we walked together collecting leaves, pinecones, acorns, and sticks. There was much to see during this time of year as the season produced shades of yellow, orange and brown right at our feet. The front yard really is a wonderful place to experience nature.

*Piper gathers acorns than have accumulated on the ground.*

*The group come upon a metal structure of a giraffe. They give it a few pats before continuing on the walk.*

*"This is a big beautiful place!"- Piper*

*"They're (leaves) turning different colors."- Damian*

*Walker takes a rest underneath a tree.*

*Towards the end, the group all gathered on the star structure for a game of charades.*
