

Weaving a rocket ship!

Do you ever wish that you could use your imagination and create whatever you like?

This morning I invited Henry, Nina, Lawson and Vell to explore weaving in the studio. What started out as weaving turned into a space adventure to meet the teenage mutant ninja turtles!

Lawson, Vell and Nina using yarn to practice lacing.

“I don’t really know how to weave! Wait! I just did it!” - Vell laughing while talking.

“I’m braiding my yarn, like my hair!” - Lawson

Everyone was content with practicing weaving when Henry mentions a rocket ship. "Hey I saw a rocket ship! I wanna build a rocket ship!" - Henry

He uses yarn to connect the shopping carts together. "We can sit in these!" - Henry.

Henry wrapping the yarn around the handles.

"This can be the house that connects to the rocket ship!" - Vell

"I wanna put my doggy in there!" - Nina.

“Where would we go in the rocket ship?” - Charletra.

“We can see the Teenage mutant ninja turtles!” - Henry.

“Yeah, I like them too!” - Vell.

“I love Sally! She can come too!” - Henry.

Henry wrapping Sally before connecting her to the rocket ship. We blast off and meet the turtles.

“They’re good guys!” - Henry
