

A visit from Trees Atlanta

February 22, 2017

Today the Blue Room got a visit from Trees Atlanta! Colby joined us for our morning meeting for a lively discussion with the children on the subject of trees, and then we went out to have a look at our very own growing trees on and surrounding the playscape. Since the trees were planted this past December, we have yet to see them with any leaves or flowers. The children are excited to see what the approaching Spring will bring for our trees!
