

Violet, intrigued by Felix's Waffle House hat tried her hand at hat making! Not so sure of herself, she approached Kalei for help. Kalei sat with V to offer small suggestions & a steady hand, but focused on providing moral support.

As she forged on with her project she became increasingly confident & ambitious. After tackling the foundational sides of the hat, she faced the challenge of the top. She observed that Felix's hat had a different kind of paper for the top, & had the ingenious idea to use similar-looking tracing paper. When she finished Felix invited her to make waffles with him! Kahlan & Wren had observed the process with keen interest. Kahlan fabricated her own hat using a mixture of V's technique & her own innovation, while Wren flipped through the entire dictionary to find "waffle."
